ABOUT

Not your standard cover band- Rearview Mirror rocks the Tampa Bay scene with its high-impact, crowd-igniting experience, designed to keep a venue buzzing from the first set to the final encore. Packed with local veteran talent, bassist Felix Nelson, vocalist Darienne Shayne, drummer Scott Johnson, keyboardist Barry Spring and guitarist Roger Jap Tjong blend decades of recognizable hits across rock, pop, funk, soul, and even a little country, delivering a constantly evolving setlist that avoids the predictable. Their charismatic chemistry and commanding stage presence are undeniable.

Powerhouse, belting vocals and first-rate synchrony bring every song to life with passion and authenticity. The band weaves in unexpected gems, clever mashups, and reimagined versions that catch audiences off guard -in the best way! Nostalgic singalongs and surprise throwbacks spark excitement across generations that brings everyone together, making packed dance floors, longer stays, and repeat crowds the inevitable result.

This dynamic group creates an electric atmosphere perfect for beach bars, clubs, private events, and festivals. Whether you're looking to relive your favorite musical eras or just want to dance the night away, Rearview Mirror brings a vibe that's both familiar and fresh and is here for the party!
